Professional summary

A passionate full stack developer with project-based experience in building web applications using Django REST Framework, React, Flask, Express.js, and Node.js. Proficient in designing scalable APIs, integrating databases, and developing responsive frontends. Skilled in implementing AI-driven features, including LLMbased chatbots, NLP, computer vision, and local model inference using RAG and Ollama.

Skills

- **Programming Languages:** Python, JavaScript, C
- **Frontend:** HTML, CSS, JavaScript, React, Bootstrap
- **Backend & APIs:** Django, Flask, Node.js, Express.js, Django REST Framework, REST APIs
- **Databases:** MongoDB, Firebase, SQL
- **Version Control & Tools:** Git, GitHub
- **Additional Exposure (AI/ML):** Scikit-learn, OpenCV, MediaPipe, YOLO, PyTorch, NLP, RAG, CNN, RNN, LSTM, LLM, Ollama, Roboflow, object detection, data labelling
- **Languages Known:** English, Malayalam, Hindi

Education

- **BTECH – Electronics and Communication Engineering (2019 – 2024)**
College of engineering Attingal Score – 7.29 cgpa

Projects

- **MYHEALTHAI – AI-Powered Health Assistant Chat bot**
Engineered a Flask healthcare website with RAG-based Llama 3.2 chat bot, document analysis, doctor directory, and medical record management.
- **Military Reconnaissance Robot**
Designed a Flask-based surveillance robot using Raspberry Pi, Pi Camera, ESP8266, ultrasonic sensor, and GPS, enabling both manual and autonomous remote monitoring.
- **E-commerce Website**
Developed a full-featured e-commerce platform using Django and react with user authentication, product management, and payment simulation.

Work Experience

- **AI & Data Science Trainer - Logiprompt Techno Solutions India Pvt. Ltd (Jan 2026)**
Delivered training in AI, Machine Learning, and Data Science
- **Intern – Expectation walkers Gen Ai research and services (Aug – Nov 2025)**
Developed full-stack web applications with React, Node js, Firebase, mongoDB, enabling real-time user interaction, secure authentication, and efficient data management with dynamic UI components.
- **AI/ML Internship – Socius innovative global brains (Jun – Jul 2025)**
Worked with YOLO, MediaPipe, Roboflow, and LLMs (Ollama)
Developed RAG-based healthcare and cooking chat bots, sign detection, finger counter, and ML models.
- **Software Engineer (AS400 Developer) – UST (Sep – Nov 2024)**
Developed user interfaces and reports using RPGLE, CLP, SQL, DSPF, and PRTF on AS400.

Certifications

- **Full Web development boot camp course from Udemy**
Express.js, node.js, react, mongo DB, bootstrap, html, CSS, JavaScript
- **Machine Learning A-Z course from Udemy**
Regressions, classifications, neural networks, reinforcement learning,
